Inspiration without limits

HP Z Workstations solutions

Spend more time creating and less time waiting. HP Z Workstations help you handle more, do more, and give you limitless creative possibilities. Packed with the newest industry-leading processing, graphics, and innovative technologies, HP Z Workstations provide the tools you need to handle the toughest workstreams.

Think HP Z

HP Z Workstations have been on the market for over 30 years. Designed from the inside out, HP Z Workstations deliver high performance and reliability with the latest innovations and industry-leading technologies. When you need to focus on your work, not your workstation—think HP Z.

Breakthrough industrial design

From the striking design of the HP Z1 to the sleek industrial styling of the desktop models, to the thin, light, business-rugged HP ZBooks, every HP Z Workstation combines stunning aesthetics with everyday practicality.

Tool-free customization

Work isn't static. Expand your system capabilities with ease as your workflow demands grow over time. HP Z Workstations feature a smart tool-less chassis, easy open access doors, and easy rack accessibility to make installing more memory, storage, and I/O options a breeze. Multiple slots and flexible storage bays allow you to install hard drives, SSDs, optical drives, RAID configurations, and more.

The quiet of HP Z Workstations

Great work requires inspiration and inspiration requires focus. The uncluttered, modular interior layout maximizes airflow to keep processors and graphics cards running at optimum performance. HP Z Workstations also feature industry-leading acoustics technology, such as high-performance air cooling, so your concentration is never interrupted.

All day, all night reliability

Testing beyond industry standards

You put your workstations through the toughest trials—we do, too. HP Z Workstations, and the components that go into them, are tested to a minimum of 368,000 total test hours in the **HP Total Test Process** and HP ZBooks are tested to MIL-STD-810G² standards. Extreme stress tests such as drop, vibration, temperature, shock, dust, and more ensure optimized performance.

HP relationships

Your work requires the best in processing and graphics performance, so HP works closely with vendors to ensure it. High-performance, multi-core Intel® Xeon® and Core™ processors³ are tested and validated by Intel and HP for your workstation-class applications to provide breakthrough performance in processing.

HP works with NVIDIA® and AMD to offer ISV-certified 2D through extreme 3D workstation graphics, including NVIDIA® Quadro® and AMD FirePro™.

Certification for every industry

HP works closely with Independent Software Vendor (ISV) developers to help ensure the most popular applications are thoroughly **tested and certified** to work on your HP Z Workstation. Whether you're working in media and entertainment or product development, finance or design, oil and gas, or geographic information systems, you can rely on these applications—known and trusted throughout your industry—to deliver rock solid reliability.

A long-term investment

Simplify your certification and support burdens and streamline large deployments with **HP Stable and Consistent Offerings**. Simply select your hardware and software components when you customize your HP Z Workstation and be assured that you'll be able to buy that same configuration throughout the lifecycle of the workstation, from product launch through retirement.

A leader in eco-labels

- HP is an industry leader in ENERGY STAR® certified products.
- EPEAT®¹ is a comprehensive environmental rating that helps identify greener computers and other electronic equipment. HP Z Workstations exceed industry requirements and were the first to achieve EPEAT Gold certification.

HP Innovations

Your job made easier

HP Z Workstations offer HP's maximum performance through unique HP technologies. Go beyond the basics to maximize your productivity, make IT management easy, and deliver a complete workstation experience.

HP Performance Advisor

Your trusted advisor

HP Performance Advisor⁴ delivers a simple, effective way to keep your workstation operating at its peak potential. Like having an IT pro always on hand, this pre-installed software can take you from initial configuration and customization through the optimization of your system for each new application and driver you install.

HP Remote Graphics Software

Go out and get inspired

From the factory floor to the boardroom, HP Remote Graphics Software (RGS)⁵ delivers seamless remote access to workstation graphics. Preloaded on every HP Z Workstation, RGS automatically adjusts to network conditions while cutting required bandwidth. Collaborate on graphics projects in real time with multiple users simultaneously and from remote computers in almost any location. Every HP Z Workstation includes an HP RGS sender license ready to activate and an HP RGS receiver license can be downloaded for any PC, Mac®, MacBook®, Windows tablet or thin client. With advanced touch recognition features on HP RGS, you can easily do real work with workstation-class applications on your HP ZBook or tablet.
